

Project Management according to PMI

SPOL offers among many other project management trainings this special course for experienced project managers who want to learn the PMI-methodology of project management.

Particularly, this training is an intensive and time-saving preparation for the certification exam as a **Project Management Professional (PMP)®** or **Certified Associate in Project Management (CAPM)®**.

The course is based on the book *A Guide to the Project Management Body of Knowledge (PMBOK® Guide)* and includes a comprehensive and detailed examination of the PMI-philosophy of project management.

Since PMI propagates a uniform global project management standard and certification, exams take place in English, the training material is provided in English.

Objectives of this course

The participants have a sound knowledge of the PMI-philosophy of project management. In particular, the participants are familiar with PMI's knowledge areas, process groups and processes of project management.

Target group and requirements for this course

The course is primarily intended for project managers with several years of professional experience who want to be certified as a *Project Management Professional (PMP)®*. However, it is also suitable for people who just want to learn the PMI-philosophy or to prepare for the certification as a *Certified Associate in Project Management (CAPM)®*.

Since all documents are written in English, the participants must have good English skills.

Training manager

The course is run by Dr. Clemens Inninger, a project manager with 15 years of experience. He is a certified PMP® and has already supported hundreds of people in their preparation for PMI certification exams.
